West Henrietta, New York 14586

February 18, 2025

Dennis Doyle, Director
Ulster County Planning Department
244 Fair Street
Kingston, New York 12402

RE: 1925 Luca Turnpike, Cottekill, New York 12419

Dear Mr. Doyle:

Please allow this letter to confirm Verizon Wireless' interest in collocating its antennae and equipment on the tower facility proposed by the County of Ulster at the above-mentioned address.

According to Verizon' Radio Frequency Engineer, the proposed Lucas Turnpike site will provide much needed coverage and capacity in portions of the towns of Rosendale and Marbletown. More specifically, portions of Rt 213, Lucas Turnpike, Cottekill Rd, Coxing Rd, Correndale Ln, Marcott Rd, as well as residences and businesses along these roadways will be provided with Verizon coverage where it does not currently exist. In addition, portions of Cottekill will be provided with new midband frequency coverage, allowing for faster speeds and more efficient service. The proposed Lucas Turnpike site will also offload the existing coverage in the area that is currently provided from distant sites, resulting in area wide improvements to the network.

Please feel free to share this information with the town of Rosendale in support of the County's application.

Very truly yours,

Brandon Farinaccio
Principal Engineer – Real Estate/Regulatory
